INDO–US WORKSHOP ON

"Medical Devices in Wound Healing"

Bridging biomedical engineering and clinical translation for next-generation wound healing technologies.

MDWH-2026 is jointly organized by the Department of Biomedical Engineering, IIT Ropar, and PGIMER Chandigarh under the SPARC, Ministry of Education. The workshop will bring together researchers, clinicians, engineers, students, and industry professionals to explore advances in medical devices for wound healing through invited lectures, technical demonstrations, and hands-on sessions. It aims to promote knowledge exchange, skill development, clinical translation, and research collaboration for next-generation wound management technologies.

December 20-21, 2026

PARTICIPATE & PRESENT

Students, residents, industry professionals, and clinicians in the field are warmly invited to participate!

The **Top 10 abstracts** will be shortlisted for jury presentations, offering an opportunity to showcase research and compete for prestigious awards.

CHIEF PATRON

Prof. Rajeev Ahuja
Director, IIT Ropar

AWARDS TO BE WON

★ **Best Oral Presentation Award – SPARC**
★ **Best Oral Presentation Award – STERMI**
★ **Best Poster Presentation Award – STERMI**

Join us to present your work, hands-on-training, gain recognition, and celebrate scientific excellence!

EMINENT SPEAKERS

Prof. Chandan K. Sen
Asso. Vice Chancellor - Life Science Innovation, University of Pittsburgh
Director, McGowan Institute of Regenerative Medicine, USA

Prof. Santanu Bhattacharya
Director, IISER Tirupati
Honorary Professor,
Indian Institute of Science, Bangalore

Prof. Dhirendra S. Katti
President, STERMI
Director,
Indian Institute of Technology Goa

Dr. Bharat Kotru
Founder & Director
Interprofessional Wound Care Association (IWCA), India
Podiatrist & Wound Care Specialist

Dr. Debarati Chattopadhyay
Dept. of Burn & Plastic Surgery, All India Institute of Medical Sciences Rishikesh
DFU Specialist

Academic – Industrial Conclave in Collaboration with Interprofessional Wound Care Association (IWCA) & Society of Tissue Engineering and Regenerative Medicine (STERMI)

ORGANIZED BY

Department of Biomedical Engineering, IIT Ropar & PGIMER Chandigarh

CONVENORS

Dr. Durba Pal
IIT Ropar

Dr. Ashu Rastogi
PGIMER Chandigarh

WORKSHOP THEMES

- Emerging Challenges in Chronic Wounds and Diabetic Foot Ulcers
- Point-of-Care Devices for Wound Assessment and Early Diagnosis
- Smart Biosensors for Wound Monitoring
- AI-Enabled Wound Imaging and Digital Wound Assessment
- Advanced Wound Dressings and Smart Biomaterials
- 3D Bioprinting and Tissue-Engineered Constructs for Wound Healing
- Wound Omics and Biomarker-Guided Precision Wound Care
